

L'architettura è vuoto a te di definirlo

Architetti occupati della forma in essa ritroverai l'uomo

L'architettura nasce da bisogni reali ma essa va al di là di essi, se vuoi scoprirla guarda le rovine

L'aquedotto vive al momento che ha cessato di portare l'acqua

Quando popoli un centro ma stabi, una casa, un quartiere per un tempo alla città

Grafici alle fedi di un alle la città, un'idea di fuoco da vulcano, la sabbia del deserto, la gungla, la stella, la fave, la fauna ... tutta la natura

Il man'vois è felice in mezzo al mare, più la dea di le dell'aripote c'è le città

L'alpinista è felice in mezzo alle montagne, più se il al al, le del aripote c'è le città

La natura sopporta solo la Denta, una credo de questo l'abbia già detto Adolf loos

Quale dispendio di energia per ventilare, riscaldare, illuminare... quando basta una finestra

Oggi intervento ha suppone una disrupzione disegno con senso e con gioia!

Credi la felicità? Continua fine a costruire i tuoi muri di pietre

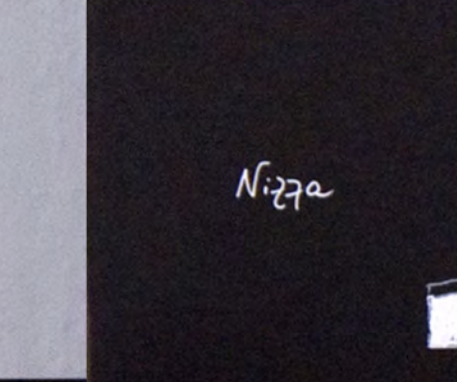

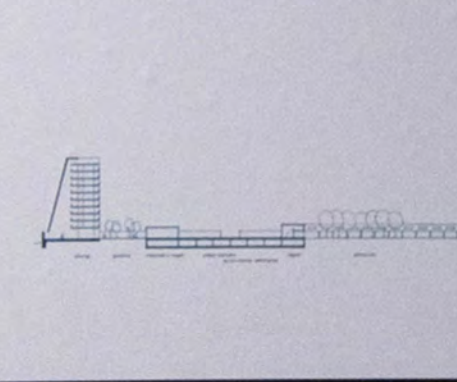

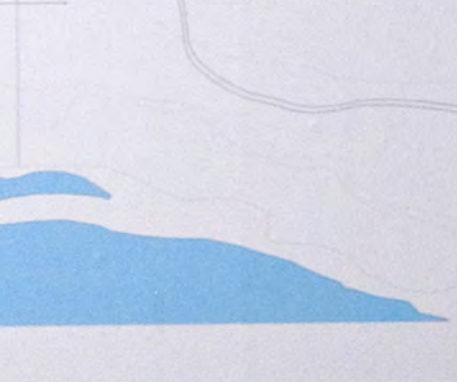

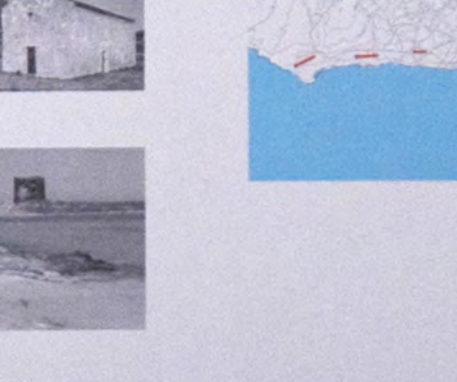

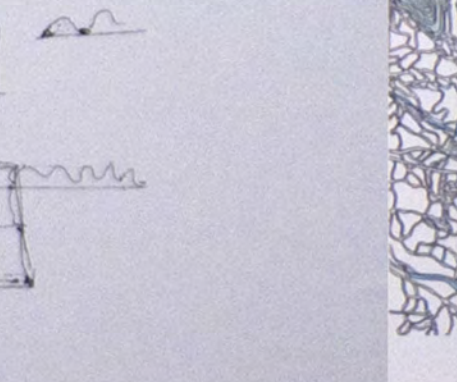

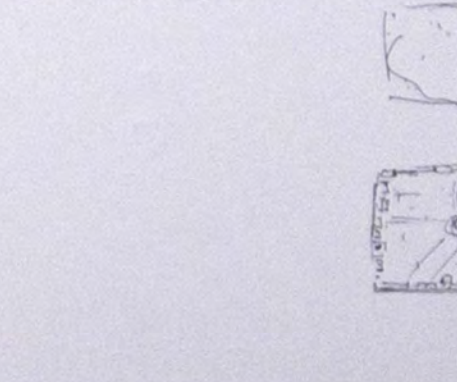

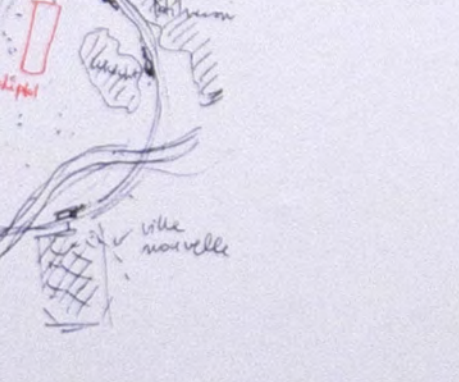

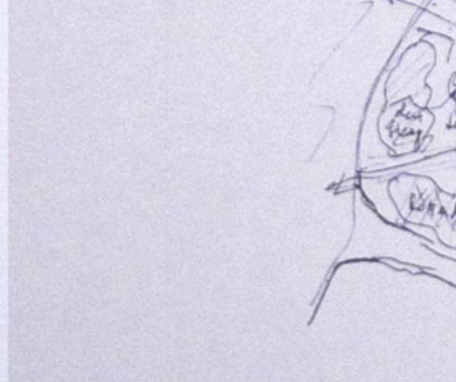

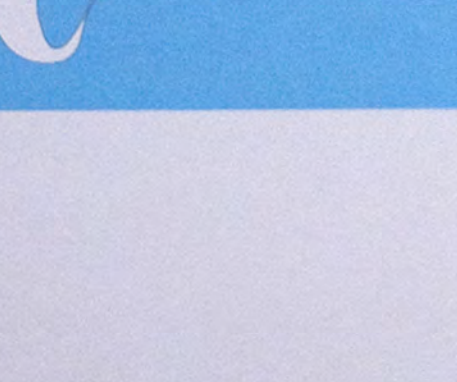

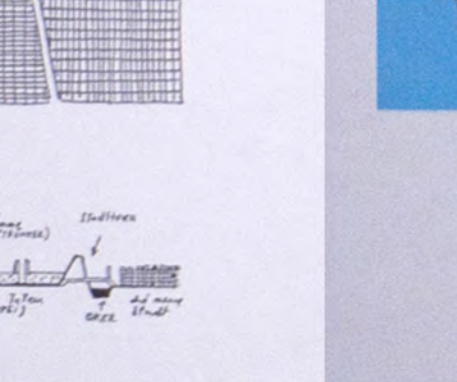

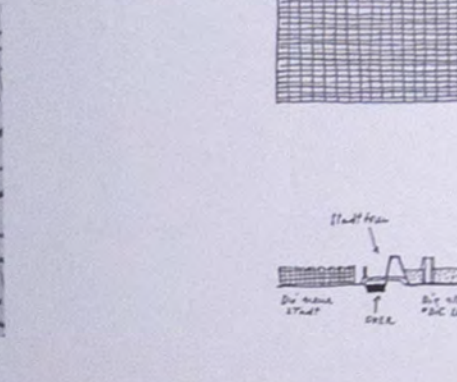

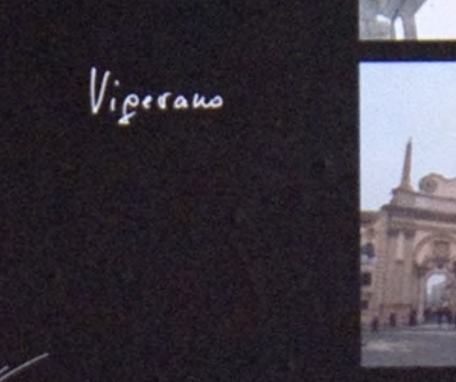

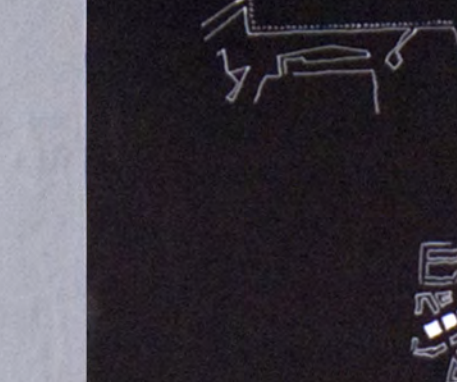

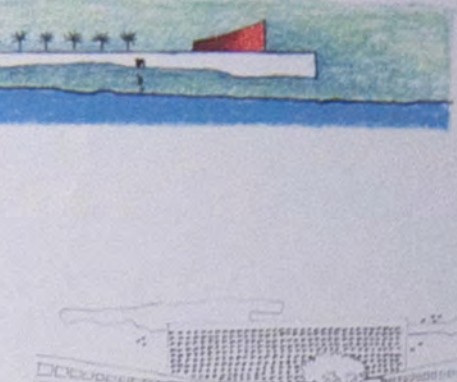

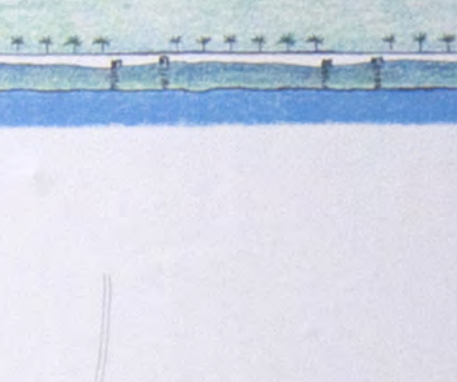

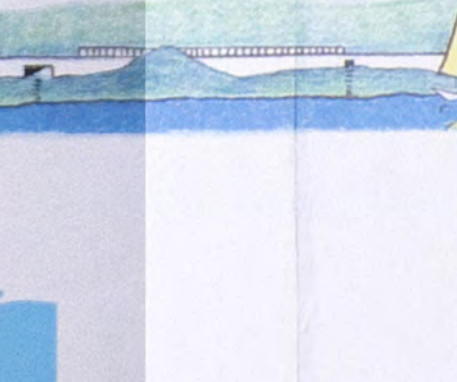

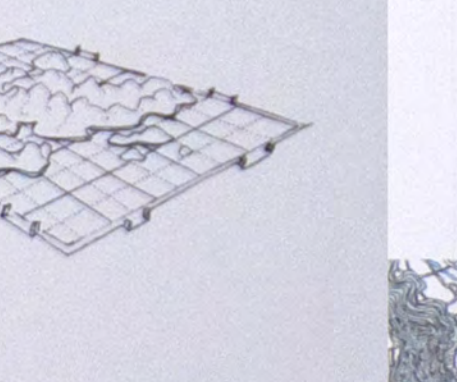

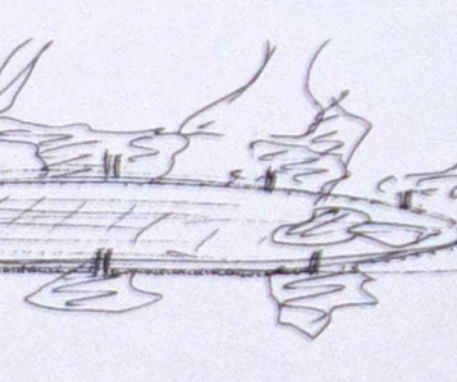

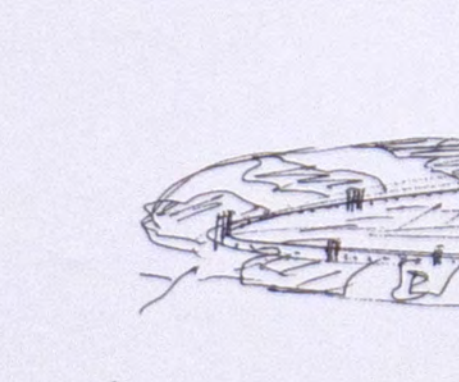

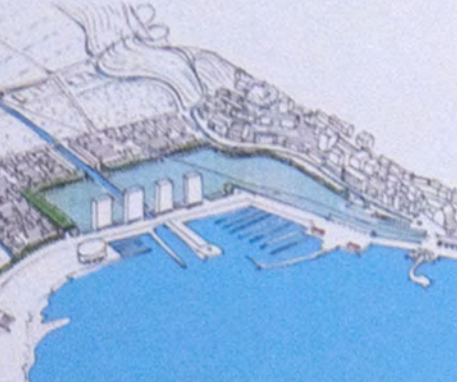

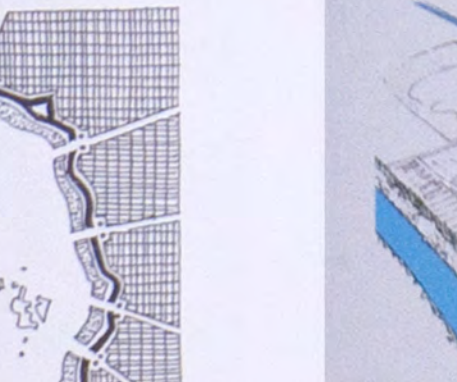

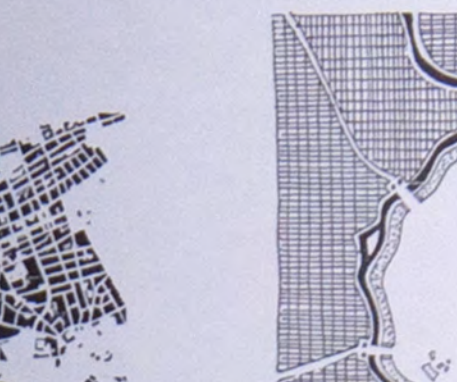

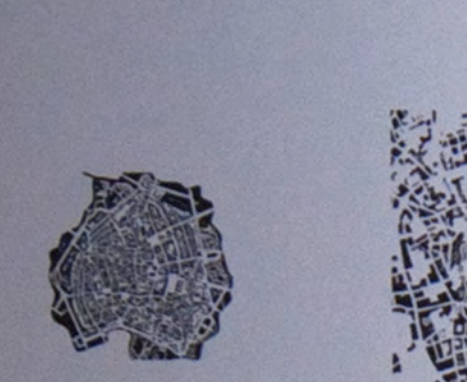

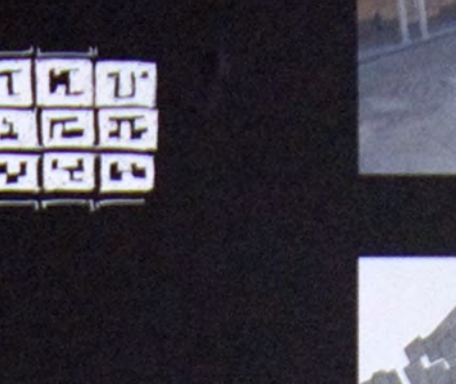

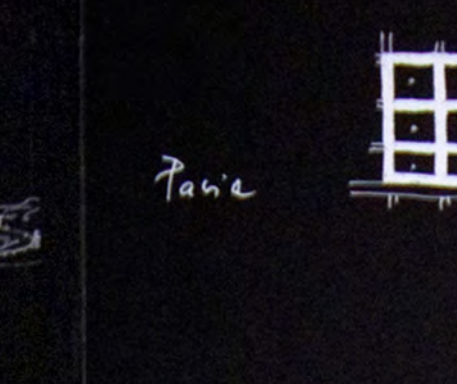

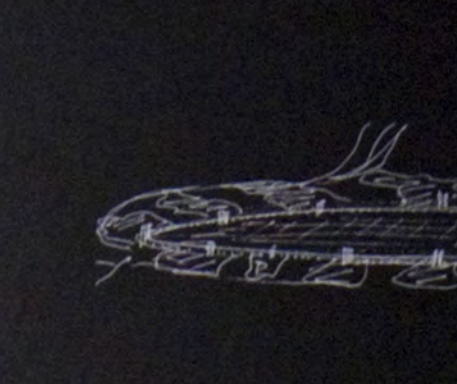

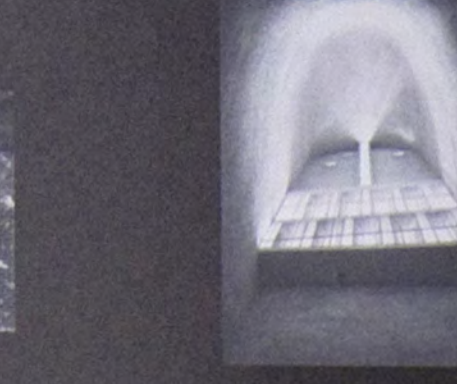

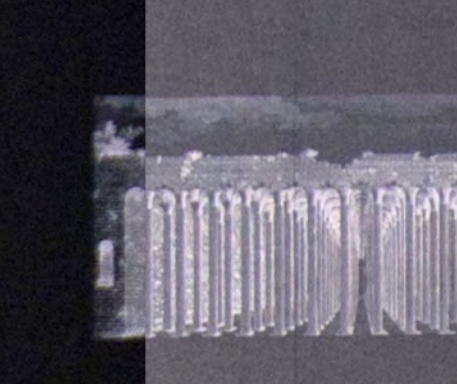

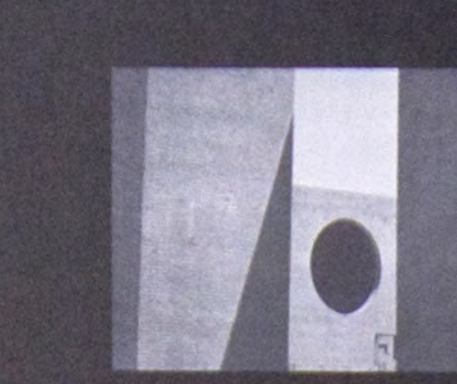

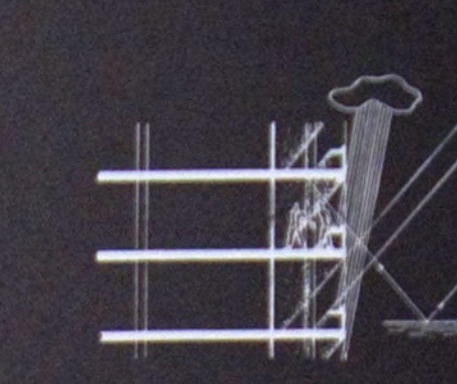

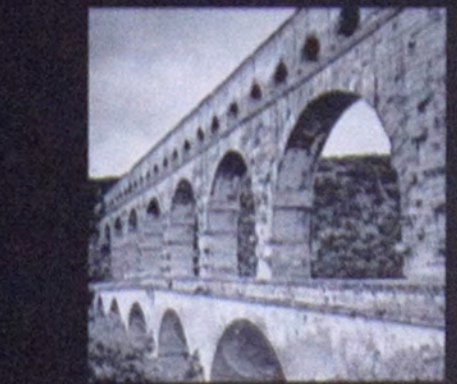

La varietà è il preludio alla monotonia se vuoi, entrare ripeti il tuo elemento

Un edificio comincia sempre dalle sue fondamenta

Ma soprattutto la luce...

L'architettura è vuoto a te di definirlo, una credo de questo l'abbia già detto

Uscite è da inventare Tutto è da reinventare
